R4100 Controller for Temperature and Cooling Technology

Modular design: Controller with Touch-Display + I/O-Board

Battery-backed Timer

Power failure safe internal memory for performance data storing

Integrated Webserver for remote access via LAN or WiFi by any end device

Connectivity: LAN, USB, various Fieldbus protocols, digital and analog I/O

Taylor made to suit your needs: I/O-board and controller software customizable

R4100 Parameterliste	
Parameterliste	
Name	Wert
Sollwert 1	150°C
Sollwert 2	OFF
Optimierung	AUS
Konfiguration Heizen-Kühlen	Heizen-Kühlen
P (xp) Heizen	20.8K

Index	Zeitstempel	Meldung
1	6.10. 16:45	Gerät eingeschaltet
2	6.10. 16:44	Gerät eingeschaltet
3	6.10. 16:44	Gerät eingeschaltet
4	6.10. 16:43	Gerät eingeschaltet
5	6.10. 12:33	Gerät eingeschaltet
6	6.10. 12:33	Gerät eingeschaltet
7	6.10. 10:33	Gerät eingeschaltet
8	6.10. 08:00	Gerät eingeschaltet

ELOTECH Industrieelektronik

designs and manufactures control systems and regulators for various sectors of industry since 1994.

Premium Quality

2 years manufacturer's warranty

Durable, tough industry quality

Single device testing

Friendly Service

Operator advice

Configuration support

After Sales Service

Express calibration and repair

Advanced Electronics

State-of-the-art RISC- und ARM-CPU

High functional range

Modular expandible

Innovative Hard- und Software according to customer's preferences

Continuously included feedback of customers
